2. Assess the applicant's participation in foreign conferences and congresses in the field of his / her scientific and pedagogical activities:

- ☒ The applicant participates in foreign conferences and congresses in the field of his / her scientific and pedagogical activities
- ☐ The applicant does not participate in foreign conferences and congresses in the field of his / her scientific and pedagogical activities
- ☐ I do not have relevant information

3. Assess the citation response of the candidate's work in international journals:

- ☒ Applicant's works are frequently cited in international journals indexed in WoS
- ☐ Applicant's works are not frequently cited in international journals indexed in WoS

Final assessment:

- ☒ the candidate meets the requirements to work as a professor in an international context
- ☐ the candidate does not meet the requirements to work as a professor in an international context

Brief rationale:

I have met the candidate in 2015, as we served together in the Education & Training Committee of the European Association for Endoscopic Surgery. During his Chairmanship, I had the opportunity to directly know and appreciate his knowledge and culture, and his enthusiastic commitment in organizing training in surgery. Also of note, we were also tutors in wet/cadaver lab courses, that means that Assoc. Prof. Šoltés is not only an open-minded international organizer, but also a practical and appreciated clinical teacher with relevant scientific & lecturing output. Thus I strongly suggest him for an academic position of full-professor of surgery.
