Short reasoning:

I strongly recommend Assoc. Prof. JUDr. Ing. Martin Kubinec, PhD., univ. prof., for appointment to the rank of full professor. Docent Kubinec is a distinguished figure in Slovak commercial-law doctrine, particularly in the areas of company law, commercial obligations, insolvency law, and unfair competition law. His publication activity is long-standing, systematic, and of consistently exceptional quality. In the pedagogical sphere, he has demonstrated sustained and continuous engagement: he teaches a wide range of courses at both the master's and doctoral levels, has served as head of department, and has successfully supervised doctoral students, all of which attests to his capacity for expert leadership and the conceptual development of the field. A significant contribution is his enduring connection between academic work and legal practice, which ensures that his theoretical conclusions remain firmly grounded in the needs of legal practice. His scholarship clearly extends into the international context, where it has also gained substantial citation impact. Given the breadth and level of his scientific, pedagogical, and practical achievements, I consider Assoc. Prof. Martin Kubinec fully professionally qualified for appointment as professor, and I support his nomination without reservation.
